COFIROUTE successfully issued an 8-year €650 million bond

COFIROUTE has successfully issued a €650 million bond due to mature in March 2033 and carrying an annual coupon of 3.125%.

With an oversubscription ratio of 2.8x, the bond issue reflects the market's trust in the company's credit ratings (Standard & Poor's: A-, stable outlook).

Performed under its EMTN programme, this issue enables COFIROUTE to extend its average debt maturity in good conditions, considering the current situation in the credit market.

The joint bookrunners for the deal were Crédit Agricole CIB and Société Générale (Global Coordinators), BBVA, CIC, HSBC, IMI-Intesa Sanpaolo, SMBC, Standard Chartered and UniCredit.
